

Enterprise PC Companion

NEC MOBILEPRO™ 800

AT A GLANCE

- 9.4" diagonal color display with 800 x 600 resolution
- Pleasingly portable—2.5 lb. and 1.0" thin
- Instant-on productivity station for e-mail, document creation, PIM
- One of the largest keyboards on an H/PC
- 32MB RAM for maximized storage
- USB port for easy connection of peripherals

The MobilePro 800 Enterprise PC Companion offers standout performance as a portable communications platform, productivity station and presentation tool for corporate and field professionals.

Full-screen Enterprise PC Companion for mobile professionals

An expansive 9.4" diagonal color touch-screen with SVGA resolution and the touch-typeable keyboard contribute to superior document viewing and navigation. The on-board RAM—32MB—provides ample storage for most users.

At just 1.0" thin and 2.5 lb. with its integrated V.90 modem, the MobilePro 800 is more portable than a notebook. Furthermore, it's ready to use the moment you turn it on.

The MobilePro 800 is powered by Microsoft® Windows® CE, Handheld PC Professional Edition, which maintains the familiar Windows look and feel.

Also pre-installed are Pocket versions of your key applications, including e-mail, word processing, spreadsheets and personal information manager (PIM). You can even create and edit presentations on the MobilePro 800.

The one-year limited warranty¹ includes 12 months of UltraCare™ Service at no extra charge: You get a toll-free hot line and door-to-door pickup and return service in the U.S. and Canada.

Call your NEC Computer Systems sales representative or **1-888-632-8701** for complete details on the MobilePro 800. Product information is available at www.nec-computers.com.
