

NEC IP8800 Switch End of Life Notification

NEC has announced that effective Tuesday, July 1, 2014 the NEC IP8800 Switch will have reached its End of Service Life (EOSL.) NEC will no longer be offering customers maintenance contract options for those models. No maintenance extensions are available.

For customer interested in learning more about the newer generation of SDN solution or Programmable Flow technology or who may have further questions about the EOSL process and effects should contact their NEC Sales Managers or NEC Partners.
