stanchion®

Easy Maintenance

Stanchion® POS systems are designed to allow key component replacements, such as HDD or an I/O board, quickly and easily, reducing recovery time and service costs.

Small Device Footprint

Our systems have some of the smallest footprints among competing touch-screen POS systems, saving valuable counter space at your retail location.

Multiple Device Configurations

Our systems are adaptable to support various business and equipped with a wide range of mounting options to meet your store's particular needs and retail environment. Plus, each device offers high reliability to withstand harsh retail environments.

Powerful, Eco-Friendly Design

Our systems are powered by energy-efficient CPUs, and the devices are designed to meet stringent NEC Eco Symbol environmental standards, including use of nonhazardous materials.
