30+ YEARS OF COLOCATION EXCELLENCE

Founded in 1951, Iron Mountain stores and protects billions of customer assets, priceless collections, and critical IT environments for 220,000 companies in 45 countries. Iron Mountain has provided data center services that meet the exacting requirements of enterprise and federal customers since the 1980’s. This extensive history uniquely prepares our engineers to deliver both outstanding availability and energy efficiency, enabling customers to colocate with confidence.

200-ACRE UNDERGROUND CAMPUS IN WESTERN, PA

Iron Mountain Western Pennsylvania (WPA-I) is an underground data center safely located 60 minutes from downtown Pittsburgh. The 200-acre campus features ambient temperatures in the 50’s and an aquifer that provides naturally chilled, recyclable water for optimal efficiency. Data halls are column and MEP infrastructure-free for maximum utilization, flexibility, and security. Diverse network and dark fiber access is available.

ONE OF THE MOST SECURE DATA CENTERS IN THE WORLD

WPA-I is part of a campus that meets the Department of Homeland Security Level IV requirements for secure federal facilities. Customer IT systems are kept safe with perimeter security, metal detectors, mantraps, biometric access controls, and CCTV.

CHOOSE YOUR DATA CENTER WITH CONFIDENCE

“As a cloud and IT services provider supporting the government sector, having the right data center foundation is critical to our success. With Iron Mountain’s expertise and NEC’s mission-critical infrastructure, federal agencies have a secure, compliant cloud option.”

Mike Mitsch, Director of Infrastructure as a Service, NEC Corporation of America

COMPREHENSIVE ENTERPRISE SUPPORT FOR DOMESTIC AND INTERNATIONAL REGULATORY REQUIREMENTS.

COMPREHENSIVE COMPLIANCE SUPPORT

94% of the Fortune 1000, 92% of federal agencies, and thousands of healthcare and financial services companies choose Iron Mountain for comprehensive compliance support. This includes FISMA High, ISO 27001, PCI DSS Level 1, HIPAA, and SOC 2 Type II.
CONFIDENCE IN LONG-TERM GROWTH, TRANSPARENT AND PREDICTABLE COST MODEL

Iron Mountain’s 200-acre campus provides the capacity and confidence that enables customer growth.

- 500,000 SF, 40 MWs of Capacity
- Consistent Delivery of Turnkey Data Center Space
- DCIM, Asset Tracking
- Consumption-Based Modeling

RELIABLE, CUSTOMER-INSPIRED DESIGN WITH CONCURRENTLY MAINTAINABLE SYSTEMS

Iron Mountain’s Western Pennsylvania data center is built to Uptime Tier III standards for reliability and resilience.

- N+1 UPS, Generators
- N+1 Cooling & Mechanical
- No Columns/MEP in Data Halls
- NOC Monitoring, 100% Uptime SLA

HIGHLY EFFICIENT: GOOD FOR CUSTOMERS AND THE ENVIRONMENT

WPA-1 customers experience significant cost savings by deploying in a location that is both secure and highly efficient.

- Low Cost of Power
- Market-Leading PUE
- Aquifer, Naturally Chilled Water Containment Solutions

IDEAL FOR PRODUCTION AND DISASTER RECOVERY REQUIREMENTS

At 220-feet below the surface, WPA-1 is insulated from natural disasters and features the reliability and network access to address your requirements.

- Resilient, Underground Data Center
- Diverse Carrier, Dark Fiber Access
- Concurrently Maintainable Systems
- Vetted, Trusted Remote Support
