UNIVERGE®
SV9100

HOSPITALITY MANAGEMENT

NEC's UNIVERGE SV9100 Hospitality Management solution allows specific applications to integrate with business processes based on specialized roles within an organization.

Hospitality Management helps ensure your guests have a memorable stay by providing them access to the latest, most advanced messaging services. Your business benefits from this solution by utilizing its extensive features such as flexible numbering, room status and toll-restriction check-in mode. Hospitality Management even works with your Property Management System (PMS) through a Property Management System Interface (PMSI) to support many key front and back-office functions.

HOSPITALITY MANAGEMENT
SOLUTION

Improves Productivity and Enhances the Guests' Experience

Hospitality Management helps hospitality industry employees save time and lower operational expenses while providing guests responsive, highend services. It efficiently integrates with your PMS to help streamline and coordinate communications.

Powerful Support for Front and Back-Office Functions

Using PMSI, Hospitality Management can help support and control many essential front and back-office functions, including:

> Message waiting indication
> Check-in/check-out suite services
> Room/housekeeping status
> Room changes

HOSPITALITY MANAGEMENT
AT A GLANCE

> Offers an extensive feature set which improves staff productivity and enhances the guests' experience
> Provides powerful support for front and back- office functions
> Integrates seamlessly with UNIVERGE InMail to provide personalized messaging for guests
> Supports VoIP telephones, digital telephones or a combination of both plus wireless handsets to provide the flexibility to meet any guest or staff requirements

Integrates Seamlessly with UNIVERGE InMail Unified Messaging

Hospitality Management integrates with UNIVERGE InMail to give guests the ability to add, delete, change and confirm their personal greetings and wake-up calls.

This package includes:

> Automatic Voice Mail Setup at Check-in
> Automatic Language setup for the guest mailbox at Check-in
> Automatic Mailbox cleared of the messages at Check-In
> Automatic Mailbox for the room cleared of greeting at Check-in
> Automatic Name for the room deleted at new Check-in
> Guest Wake-up Set/Cancel
> Forbid calls to another guest
> Database Synchronization
> Message Waiting Set/Cancel
> Actions at Check-In:
   • Mailbox for the room is cleared of messages
   • The mailbox language goes back to default
   • Mailbox for the room is cleared of greetings
   • Name of the room is deleted
   • Security code is deleted (if applied)
> No Actions at Check-out

Flexible Technology
