

InUC

COST-EFFECTIVE UNIFIED
COMMUNICATIONS APPLICATION

BUILT-IN VIDEO COLLABORATION, DOCUMENT SHARING, PRESENCE, IM & MORE

In today's working environment, employees are spread across different locations. InUC is a unified communications application providing video conferencing, collaboration, document sharing, presence and instant messaging for any business of up to 255 users. Utilizing WebRTC (Real-Time Communications) - InUC provides highly cost-effective video and collaboration that works seamlessly within your IT environment.

INUC USES & BUSINESS BENEFITS

- > **Increase your productivity levels:** Time-saving features for all your work force
- > **Web video conference:** Enables travel savings, mobility, home working & multi-site organizations
- > **Screen sharing:** Provides collaboration on documents with multiple users
- > **Lower costs:** Single initial cost, no recurring monthly subscriptions
- > **Easy to use:** Minimal / no training required
- > **Always on 24/7:** Browser-based
- > **Full call control through web-based client:** Enables a quick and easy way to manage calls and lookup contacts
- > **Presence:** Provides a 'bird's eye view' of your team's availability making users become more reachable

Users are able to quickly set-up audio and video connections between two or more PCs or devices from anywhere with an internet and VPN or LAN connection.

As well as video and audio conferencing functionality, PC users can work collectively with screen share and shared documents. It's also ideal for live software demos and presentation slideshows.
