

UNIVERGE® SV9100

COMMUNICATIONS PLATFORM

The UNIVERGE® SV9100 Communications Platform is a robust, feature-rich and scalable system that is ideal for small and medium businesses. It is designed to help solve today's communications challenges and offers the ability to expand as your business grows in the future.

UNIVERGE® SV9100 AT A GLANCE

- > **Multi-carrier SIP support** - Offers greater resilience and provides more cost effective routing of calls
- > **VoIP, Traditional Voice Support and/or a combination of both** - Offers flexibility and choice to suite individual business requirements
- > **Application Integration** - Extends to the cloud via desktop/mobile apps to provide voice, video conferencing, chat and file sharing, and offers embedded applications that are easily accessed through simple licence activation
- > **Scalability** - Easily expands as a business's communications needs grow via on-prem or cloud
- > **Stackable Architecture** - The SV9100's rack stackable chassis supports server functions, media gateways and media converters through a single unit
