Empowering the Smart Enterprise

Smooth, Secure and Up-to-Date - Worry Free in Every Stage of the Lifecycle

Software Assurance (SWA) is NEC's software subscription and support program, specially designed to complement and protect your existing NEC software licenses and systems. Software Assurance entitles you to receive all available software updates / service packs and upgrades for an all-inclusive subscription fee. With Software Assurance, you have the peace of mind of knowing you have access to NEC technical experts through your NEC authorized representative, ensuring you get the best possible support throughout the lifetime of your investment.

NEC understands that your investments in communications technology are important. Communications are crucial to practically any organization today. They bring added value to your business and often help increase your bottom line.

To safeguard smooth operations, it is recommended that you keep your NEC platforms and applications operating at the most recent levels. By keeping your systems and applications current, you protect your investment while providing your business with the latest communications tools to stay competitive in today's marketplace.

Protect Your Assets and Investments

With NEC's Software Assurance, you get the very most from your investment in NEC communications solutions by always staying current with the latest features and advancements. SWA provides you with all security patches and major releases issued by NEC. As a result, you can be assured that your investment will be protected, that your software deployments run smoothly, that your business remains efficient, and that you always have the peace of mind that your organization's communications solutions are stable, secure and up-to-date.

Leverage Functionality and Stay Current

With Software Assurance, you receive complete software support coverage for your NEC platform software and applications. We will notify your NEC authorized representative when new releases are available so that you can ensure your software is always kept up-to-date.

Simplify Planning and Operations

Because you renew your subscription to NEC's Software Assurance annually, you can plan your software expenditures without the concern of unexpected upgrade costs. The fixed annual contract includes service packs, security patches, enhancements and new software releases (some new features may be protected by commercial licenses which are not included). You'll never have to worry about unforeseen software expenditures again!

Access to the Highest Level of Support Expertise

With Software Assurance, the NEC authorized representative with whom you have a support contract receives access to our direct support services and resources. You can be assured of service continuity for your system to keep it working properly, while your internal IT staff can focus on other priorities. Quick resolution minimizes downtime and ensures that your system keeps running smoothly.

Support at Every Stage of the Lifecycle

How will Software Assurance Benefit My Business?

Helps you stay current

New features are constantly being developed to address changing demands. Software Assurance ensures you are up-to-date with the latest software releases and enhancements.

Budget more efficiently

Software Assurance's fixed annual contract allows you to plan your software expenditures in advance – alleviating the concern of unexpected maintenance or upgrade costs.

Increases productivity

With NEC technical support professionals assisting your NEC authorized representative, you receive fast, responsive access to support services and resources – maximizing uptime.

Protects your investment

By keeping your systems and applications current, you provide your business with the latest communications tools to stay competitive in today's marketplace.
