

Unified Identity Tools for Every Mission - Public Safety & Civil Operations

NEC SmartScan™ Enroll

SmartScan Enroll

Enroll is a multi-modal biometric capture and enrollment web app supporting the finger, face, iris, and scars/marks/tattoos (SMT) modalities. This solution can be utilized to process criminal arrest bookings or offender registrations, screen civil applicants, or create enrollments for any desired downstream digital identity use case. SmartScan Enroll can be configured to meet any operational need.

Use Cases

Booking & Intake: Capture complete biometric records for new arrestees or detainees

Background Checks: Support employment, licensing, and other vetting processes with high quality biometric capture

Immigration and Borders: Securely enroll individuals as required at points of entry

Access Control & Credentialing: Enroll personnel for secure facility access or identity based authentication

Multi-modal Identity Creation: Build reliable digital identities using any or all biometric modalities for maximum accuracy

Why Choose SmartScan Enroll

Consistent, High Quality Capture: Guided workflows ensure every biometric meets AFIS and NIST standards to increase data quality and reduce rework

Multi-modal Flexibility: Finger, face, and iris capture in a single, unified interface.

Centrally Managed Updates: New capture profiles and standards pushed instantly across all stations

Offline Resilience: Local, secure transaction caching keeps operations running during connectivity interruptions

Interoperable: Works with both NEC and third-party biometric identification systems through open standards
