

Unified Identity Tools for Every Mission - Public Safety & Civil Operations

NEC SmartScan™ FastID

SmartScan FastID

FastID provides finger, face, and iris support in a lightweight web app enabling rapid, accurate biometric identification or verification. Fully configurable capture sequences enable agencies to implement secure identification or verification for any desired purpose. A modern web app architecture allows FastID to be easily deployed to any location where secure biometric identification is needed.

Use Cases

Pre-Booking Identification: Quickly confirm booking begins

Prisoner Transfer & Release: Ensure the correct individual is being moved or released at all times

Court Appearances: Fast and accurate biometric verification via the modality of your choice

In Vehicle Checks: Field identification via MDT paired with portable biometric capture peripherals

Why Choose SmartScan FastID

Instant AFIS Searches: Local, state, or national queries in seconds

Enhanced Officer Safety: Immediate insight into warrants, violent history, or false identities

Low Maintenance Deployment: No thick-client application installs

Centralized Control: Manage workflows, devices, and user permissions from one web portal

Interoperable: Works with both NEC and third-party biometric identification systems through open standards
